

Diy Skunk Odor Remover Quick Recipe

Ingredients:

- 3 quarts 3% hydrogen peroxide
- 3 heaping tbsp baking soda
- 2 tbsp Dawn Original dish soap
- 3–4 splashes white vinegar

Instructions:

1. Mix peroxide, baking soda, and Dawn in a deep plastic tub.
2. Slowly add vinegar (it will foam).
3. Apply outdoors with gloves, avoiding eyes.
4. Rub into fur thoroughly with a sponge.
5. Let sit for 15 minutes.
6. Rinse well.
7. Shampoo with any available shampoo or body wash.

Notes:

- Mix fresh, never store!
- Thick mixture clings to fur for better odor neutralization.
- Works far better than tomato juice.
